

# How to Make a Map on Healthier Together

1. From the top bar on the homepage, click on **MAPS & DATA** then select **MAKE A MAP**

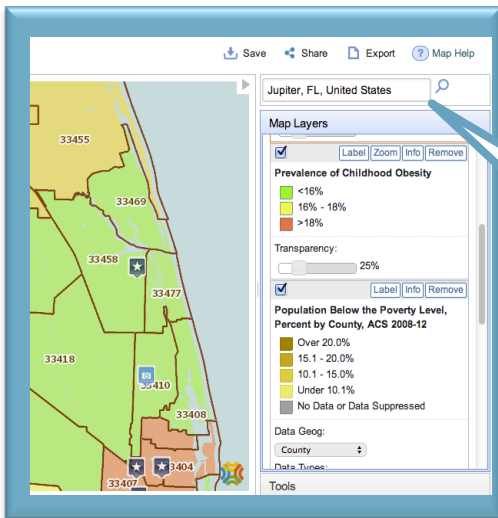

Use the Search window to find data by key word. You can also choose the geography of the data with the Data Geography click boxes.

2. Explore your options by clicking on the drop down menus to show the indicators.

Click on the Commons Data tab for more data options.

3. Click **Add** to create your map.

4. Zoom into your community by entering a location in the search bar or by using the buttons in the left side of the map.

5. Turn on and off selected layers using the check box. The red outline indicates the active layer. Delete layers by selecting **Remove** on each layer.
