

Save, Share or Export a Healthier Together Map

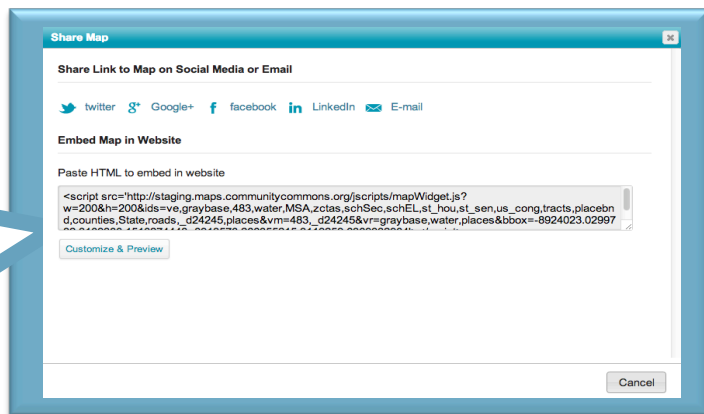

1. After creating your map, click on the Save, Share, or Export icons.

2. Provide a meaningful title and description. We strongly encourage including the reason you created the map and the data used. Tags help others find the map.

3. Click on the Share icon to put your map on social media, share it via email, or put it in a blog or on a web site.

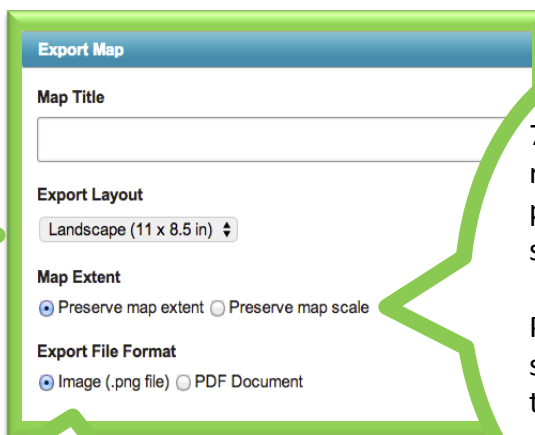

4. Customize the size of your embeddable map with

[Customize & Preview](#)

5. The Export icon is used to download your map.

6. Click Layout to choose size and image options.

7. Map extent refers to preserving the selected area.

Preserving map scale may alter the visible area of your map.

8. Choose the format that best fits your needs.
